Sir:

In response to the Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures dated June 30, 2008, Applicants respectfully submit that this Notice was mailed in error.

As discussed in a July 30, 2008 telephone conversation between Barbara Campbell of the United States Patent and Trademark Office and Applicants' representative Elias J. Lambiris, Applicants confirm that the instant application does not contain disclosures of nucleotide and/or amino acid sequences which would necessitate a Sequence Listing.

The Examiner is hereby invited to contact the undersigned by telephone if there are any questions concerning this Response or the instant application.

Respectfully submitted,

Date: July 31, 2008
